Dear Reader:

Greetings and blessings to you. I take this opportunity to communicate a loud trumpet blast on behalf of the Dr. Rickey Nation's great material on establishing and operating a biblical counseling center ministry.

Often a graduating student walks off the platform at graduation and realizes that it's now time to get to work. Then the thought comes to mind: "How do I get started in my calling as a counselor?" That's when you should turn to Dr. Nation's great instruction called: "*How to Start a Counseling Ministry and Take It Higher.*"

This material is not only a powerful systems and procedures manual, but also contains a tour and interview of three existing counseling centers, one in a home, one in an office and one in a church setting. What an aid to getting started on the right foot: seeing an actual office, looking at the arrangement of furniture and tools, and hearing the counselor tell about certain aspects of the counseling practice that may not have been taught in school.

The material contains two DVDs, and a CD-ROM that includes all of the printable forms you will need to operate a professional ministry center. Having Dr. Nation walk you through his system and visit real life ministries, is like having an experienced professional consultant work with you to get you started. Can you imagine how much a consultant like that would cost?

I have studied Dr. Nation's complete package and can tell you that it is the best aid to commencing a new counseling ministry, or revitalizing one that is not performing well, than anything I've seen anywhere. Of course there will be some differences to your particular work, but this information will serve you well as you develop your uniqueness.

As a ministry administrator, I highly recommend "*How to Start a Counseling Ministry and Take It Higher,*" by Dr. Rickey Nation.

Gratefully Yours,

Rev. Donald W. Struble, M.B.A., D.B.A.  
President
